

DigtaSoft One DigtaSoft DigtaSoft Pro

Professional digital voice processing software

Recording, data transfer and archiving – whether at work or on the go: Custom-made PC software for digital dictation machines from Grundig Business Systems

Simply select the speech processing software matching your individual requirements:

DigtaSoft One for an easy start into the world of digital dictation - the main focus lies on the basic recording and playback functions. The consistent user-interface makes a change to DigtaSoft or Digta Soft Pro as easy as child's play.

DigtaSoft allows efficient workflow management with several dictation folders and comprehensive setting options in more complex dictation networks.

DigtaSoft Pro offers extended workflow management with useful additional functions (several inboxes, date workflow, etc) for professional users and service staff thus allowing even more efficient dictation processing. Supports WTS, CITRIX and Linux Thin-Clients.

- Dragon speech recognition with GBS hardware
- Sending dictations over the network or by e-mail (drag&drop)*
- Workflow management (priorities, statuses, deadlines, etc.)
- Status check and dictation process monitoring Dictation processing
- Support of Citrix for all DigtaSoft Pro applications and for all Digta dictation machines with USB interface (also Linux)
- Easy integration for E-Mail-Client (e.g. Microsoft™ Outlook) and also for E-Mail Server
- DigtaSoft Pro with reporting tool
- Import of blackberry audio files (AMR files)*
- Document approval process*
- Digta SonicMic II support*

*New in Version 4.3

>> mobile dictation

>> desktop dictation

>> management of the transcription station

DSSPro:

- Excellent audio quality with 16 kHz sampling
- Optimised for speech recognition
- Encryption during recording optional
- Protection of data during internet transfer

Technical data

	DigtaSoft One	DigtaSoft	DigtaSoft Pro
Operation & Dictation management			
Dictation play back in the DSS (.dss), DSSPro (.ds2), and Wave (.wav) format	•	•	•
Import of AMR Files (Blackberry® Audio-Files)	•	•	•
Easy creation and processing of professional dictations in DSS and DSSPro	•	•	•
Clarity thanks to familiar directory structure "Proper dictations", "Sent dictations" and "Inbox"		•	•
Considering of important additional information via "dictation accompanying note" (author, typist, topic, priority, group, etc.)		•	•
Recording of up to 16 infos (DSS)/ 32 Infos (DSSPro) in the dictation	•	•	•
High data security through encryption and password protection of individual dictations	•	•	•
Marking and deleting of dictation parts as well as insertion of new dictation parts	•	•	•
Sorting dictations according to certain criteria	•	•	•
Individual setting of the click times, eg double click and long click		•	•
Individually configurable DigtaSoft hotkeys to comfortably control third party applications and for improved access for the visually impaired and the blind		•	•
Display of certain data-list entries from csv-files within dictation-list			•
Optionally the "Dictation accompanying note" can be made visible (for easier communication between author and typist)			•
The complete dictation history is visible (with DigtaSoft only the last entry)			•
Extended information in the dictation overview			•
Extended settings of the user interface			•
Individually adjustable sample time (5-120 sec.)			•
Set deadlines and priorities (automatically)			•
Archive folder for finished dictations			•
Workflow-Management			
Send dictations to e-mail recipients (including DSS-Player)	•	•	•
Send dictations to dictation network recipients (optional)		•	•
Automatic import from email inbox		•	•
Create new documents when opening (depending on dictation type)		•	•
Configurable access to dictation pools		•	•
When the dictation is closed the last dictation position is stored (at secretariat and authors possibly)			•
Document approval process*			•
Automatic deletion of transferred dictations			•
Management of several inboxes		•	•
Terminal Server support: Citrix (Windows/Linux) and WTS			
USB audio playback and record in a proper DSS/DSSPRO voice channel with extremely low data rate (<8 kbps)			•
USB control / HID control – fast control of USB devices because of very short reaction time			•
USB mass storage – dynamic recognition of USB devices as – automatic drive mapping on the client (no server mapping)			•
Parallel operation DSS movers with DigtaSoft pro possible			•
Administration/Management:			
Local management of users and settings		•	•
Central management of users and settings			•
Local and central saving of dictations	•	•	•
Dictation editing log - history - (can be deactivated)		•	•
Automatic checking and carrying out of firmware updates for connected dictation devices	•	•	•
Freely configurable dictation types and groups		•	•
LDAP import function (users/contacts)		•	•
DigtaStatistics reporting tool (controlling function)			•

	DigtaSoft One	DigtaSoft	DigtaSoft Pro
Compatibility & interfaces			
Transfer and edit dictations from GBS digital portable dictation machines	•	•	•
Configuration and automatic recognition of digital GBS hardware	•	•	•
Voice recognition systems: – Nuance Dragon NaturallySpeaking – MediaInterface-SpeAKING – 4voice-Spracherkennungsserver			•
Interfaces: – MAPI compliant e-mail clients (e.g. MS Outlook) – SMTP/ POP3 compliant e-mail servers (eg. MS Exchange, Novell GroupWise, Lotus Notes Domino Server – LDAP compliant e-mail servers – HID 2 report (to integrate extended hardware functionalities like barcode reader/ RFID)			•
XML interface (export of the accompanying note eg to SAP based information systems)			•
Installation			
Stand-alone DSS mover for automatic dictation transfer from dictation devices	•	•	•
Single user workstation installation (easy plug & play installation by Wizard)			•
3-click-installation	•		
Easy installation and expansion of an existing dictation network (a.o. automatic silent client installation)			•
Citrix Server support (Windows or current Linux Clients) as well as Windows Terminal Server (WTS-Clients)			•
Licensing			
Central concurrent licensing with DigtaSoft license server (optionally) for Windows Server			•
Central concurrent licensing with DigtaSoft license server for Citrix Server and WTS			•

System requirements

Recommended minimum requirements	Pentium IV, 512 MB RAM (Vista 1 GB)
Operating system	Microsoft Windows 7/Vista/XP/2000
Hard disk storage	90 MB + 1 MB for approx. 10 minutes' recording
USB	USB port for USB devices
Serial	Serial port for Steno adapterbox and Soundblaster compatible sound card
In case of Terminal Server installation	Citrix Metaframe Presentation Server 3.0 or higher Windows 2003 Server or higher ICA-Client 8.0 and RDP-Client 5.2 or higher (supported Thin-Client solutions on request)

Recommended accessories

Portable dictation machines	e.g. Digta 4015 DS, Digta 420, Digta 415, Digta Mobile Premium Kit
Desktop dictation workstation	e.g. Digta CordEx, Digta SonicMic II, Digta SonicMic II Classic, Digta Desktop Premium Kit
Transcription station	Digta Soundbox 830, Stenorette Digital Sd 4240, Digta Transcription Premium Kit

Please make sure to choose only genuine accessories from Grundig. Product liability and warranty service are provided only in this case.
The use of non-Grundig accessories or those which are not recommended and approved by Grundig automatically void any warranty claims towards Grundig.
